

Welcome to Mrs. Swenty's Life Science Class!

Are you ready to learn about life science this semester?!

In this class, we will learn about many different areas of life science! This is going to be a great class that I think will capture your interest in life sciences in some way!

***CELL BIOLOGY**

INCLUDES cell structures and functions

***EVOLUTION**

INCLUDES rate and change of life forms over time

***CLASSIFICATION**

INCLUDES classifying life, domains, & kingdoms

***VERTEBRATES & INVERTEBRATES**

INCLUDES "with" backbone & "without" backbone & body structures

***GENETICS**

INCLUDES mitosis, meiosis, DNA, heredity, genetic technology

***ECOLOGY**

INCLUDES populations, communities, ecosystems & human impact

***PLANTS**

INCLUDES plant structure & function

COME PREPARED TO CLASS EVERYDAY!

You will need your science book, a pencil, and a 3 ring binder with paper

HOW TO MAKE THE GRADE

*I expect YOU to come to class prepared to do your BEST every day.

*All homework assigned WILL be worth points and should be taken seriously.

*Please remember daily startups are required and can help your grade.

*IF a grade is borderline, THEN I will determine your grade based on class participation and effort level.
